Product Overview

STERILIZER

ETO Sterilizer

Steam Sterilizer

Autoclave Sterilizer

Fully Automatic Horizontal Sterilizer

Dry Heat Sterilizer

ETO Gas Sterilizer with Autoclave

Sliding Door Door Steam Sterilizer

Food Steam Sterilizer

Chemical Machinery

Reaction Vessel

Condensor / Heat Exchanger

Agitators / Mixer

Ribbon Blender / Paddle Mixer

Tray Dryer Machine

Sigma Mixer Machine

Resin Plants

Pilot Reaction Vessel

PHARMACEUTICAL MACHINERY

Mass Mixer

Rapid Mixer Granulator

Fluid Bed Dryer

Octagonal Blender

Paste Kettle

Multi Mill

Mixing Vessel

Homogenizer / Emulsifier

Paint machinery

Twin Shaft Dispenser

Dispenser Machine

Stirrer Mixer

Pug Mill

Bead Mill

Ball Mill

Alkyd Resin Plant

We are engaged in manufacturing and exporting alkyd resin plants for our clients spread worldwide. These are available in various technical specifications and are appreciated worldwide for its unique features such as high durability, corrosion resistance and optimum utility.

In our range of alkyd resin plant, we offer oil alkyd resin plant and long oil alkyd resin plant.

Oil Alkyd Resin Plant

We offer a wide range of oil alkyd resin plant, long oil alkyd resin plant etc that is used mainly in the manufacturing of the enamel paints. In our range, we can offer long oil, medium & short oil. The capacities of these plants vary from 1 Ton to 15 ton, batch on solid base. We also have the facility to offer multipurpose oil alkyd resin plant and long oil alkyd resin plant where in the plant can run on solvent process or by fusion process. The heating unit will be high temperature thermic heater.

SALIENT FEATURES :

Our rich industry experience helps us to offer **Jacketed Reactor, Limpet coil reaction Vessel** which is available in different capacities ranging from 0.1 KL to 25 KL. These are fabricated from high grade raw material including stainless steel (304, 316), MS, hastelloy, titanium and nickel, which is procured from renowned vendors. These high performing Reactors find wide application in chemical and pharmaceutical industries for the following features:

- Type: Jacketed Reactor, Limpet Coil Reactor, Multipurpose Reactor with internal Coils
- Capacity : 20 Liters to 20,000 Liters In AISI SS 304, AISI SS 316, M.S, MOC, in Standard & CGMP Model Construction
- With M.S/ S.S jacketed & insulation with SS cladding.
- Direct top mounted stirrer with top dish / without top dish
- Different type of stirrer i.e. propeller / pedal / anchor available
